

JOB PERKS

“At Strada, designing sustainable buildings is part of our commitment to responsible architecture, so, for me, using transit is another facet of Strada’s green strategy. Strong transit is essential to maintaining Pittsburgh’s urban core, and the Job Perks program makes it easy for all our employees to support and use transit.”

Ed Shriver
Principal
STRADA Architecture

“As one of the oldest and largest full-service wealth management firms in Western Pennsylvania, we appreciate not only the financial goals of our clients, but also the financial goals of our employees. They appreciate the extra money they save on their taxes through the Job Perks program.”

Sherry Szakelyhidi, SPHR
Director of Human Resources
Hefren-Tillotson, Inc.

“HDR has participated in Port Authority’s tax-savings program for nearly a decade now and today we have built up participation in the program to about 75% of our local workforce. Being located in the heart of busy downtown Pittsburgh, commuting and parking are definitely issues for our employees. Job Perks is a valuable tool that helps keep our valued employees coming Downtown.”

Ralph W. Gilbert, Jr. P.E.
Senior Vice President
HDR Engineering

For over five years, Job Perks has been an extremely effective program for The Pittsburgh Cultural Trust. Many of our staff members have utilized the program to commute into the heart of the Cultural District. Job Perks rewards our dedicated employees and provides an environmentally friendly transportation alternative for the arts community.

Marc Fleming
Vice President of Marketing & Communications
The Pittsburgh Cultural Trust

“Burt Hill, the largest and most technologically-advanced architectural firm in Pittsburgh, has a varied client base that shares our dedication and commitment to community. We strive to provide this same high level of dedication and commitment to our employees. The Job Perks program allows us to do just that. It allows us to attract and maintain a diverse workforce within the Pittsburgh community by providing our workers with something extra, something that will keep them coming to work each day.”
