

FOR IMMEDIATE RELEASE (September 2, 2020) – Four Port Authority employees have tested positive for COVID-19 since last week’s update, bringing the total number of employee cases to 48.

All four employees work at Port Authority’s light rail facility in Upper St. Clair and have been off in medically directed quarantines since they began experiencing symptoms.

Port Authority continues to follow all state and county health department guidelines and as with all previous cases, confidentially reported these cases to the Allegheny County Health Department.

Port Authority reminds all riders that vehicle capacity limits will remain in place so riders can socially distance as much as possible.

Face coverings are required to be worn at stops and stations, when boarding and riding inside vehicles, and at the Downtown Service Center.
